

Ferill

2014 – 2017 Nýdóktor, Líf- og umhverfisvísindastofnun, Háskóli Íslands. Stundaði rannsóknir m.a. á uppbygging plöntusamfélaga í frumframvindu, áhrifum sauðfjárbeitar á vistkerfi og hlýnunar á plöntustofna.

2007 Sérfræðingur, Náttúrufræðastofnun Íslands

2004 Rannsóknarkona, Landgræðsla ríkisins

Ph.D. í plöntuvistfræði frá Stokkhólmsháskóla (2014). Doktorsverkefnið fjallaði um það hvaða þættir stýra uppbygging plöntusamfélaga í beittu graslendi.

M.Sc. í plöntuvistfræði frá Háskóla Íslands (2007). Meistaraverkefnið fjallaði um áhrif örlandslags á dreifingu og nýliðun plantna á Skeiðarársandi

B.S. í Líffræði frá Háskóla Íslands (2004).

Ritaskrá

1. A Jeliakov, Bryndís Marteinsdóttir o.fl 2020. A global database for metacommunity ecology, integrating species, traits, environment and space. *Scientific Data* 7: 1-15.
2. James D. M. Speed, Bryndís Marteinsdóttir o.fl. 2019. Trophic interactions and abiotic factors drive functional and phylogenetic structure of vertebrate herbivore communities across the Arctic tundra biome. *Ecography* 42: 1152-1163.
3. Alicia Valdés, Bryndís Marteinsdóttir og Johan Ehrlén 2019. A natural heating experiment: Phenotypic and genotypic responses of plant phenology to geothermal soil warming. *Global change biology* 25: 954-962.
4. Isabel C. Barrio, David S. Hik, Jóhann Thórsson, Kristín Svavarsdóttir, Bryndís Marteinsdóttir og Ingibjörg Svala Jónsdóttir 2018. The sheep in wolf's clothing? Recognizing threats for land degradation in Iceland using state-and-transition models. *Land Degradation and Development* 00: 1-12.
5. Sinikka Robinson, Orla McLaughlin, Bryndís Marteinsdóttir og Eoin O’Gorman 2018. Soil temperature effects on the structure and diversity of plant and invertebrate communities in a natural warming experiment. *Journal of Animal Ecology* 00:1-13.
6. Bryndís Marteinsdóttir, Isabel C. Barrio and Ingibjörg Svala Jónsdóttir 2017. Assessing the ecological impacts of extensive sheep grazing in Iceland. *Icelandic Agricultural Science*. 30:55-72.
7. Bryndís Marteinsdóttir, Þóra Ellen Þórhallsdóttir og Kristín Svavarsdóttir 2017. Multiple mechanisms of early plant community assembly with stochasticity driving the process. *Ecology* 99: 91–102.
8. Bjarni D. Sigurdsson, Niki I. W. Leblans, Bryndís Marteinsdóttir o.fl. 2016. Geothermal ecosystems as natural climate change experiments: The ForHot research site in Iceland as a case study. *Icelandic Agricultural Science* 29: 53-71.

9. Tina Astor, Joachim Strengbom, Matty Berg, Lisette Lenoir, Bryndís Marteinsdóttir og Jan Bengtsson 2014. Underdispersion and overdispersion of traits in terrestrial snail communities on islands. *Ecology and Evolution* 4 :2090-2102.
10. Bryndís Marteinsdóttir 2014. Seed rain and seed bank reveal that seed limitation strongly influences plant community assembly in grasslands. *PloS one* 9: e103352.
11. Bryndís Marteinsdóttir og Ove Eriksson 2014. Trait-based filtering from the regional species pool into local grassland communities. *Journal of Plant Ecology* 7: 347-355.
12. Bryndís Marteinsdóttir og Ove Eriksson 2014. Plant community assembly in semi-natural grasslands and ex-arable fields: a trait-based approach. *Journal of Vegetation Science* 25: 77-87.
